

Kids DISC

Designed for Kids, Parents,
Teachers, and more!

A report designed for real-world use

Personalized from each child's assessment results, this comprehensive report delivers practical, easy-to-apply guidance. In addition to describing the child's DISC bird style, it offers strategies for understanding and interacting with different styles at school, during activities, and at home.

Discover what makes them unique

This assessment experience helps children better understand themselves and how they relate to others. Inside the report, kids and the adults around them gain valuable clarity on

communication preferences, motivators, responses to challenges, and natural strengths, along with guidance for supporting growth and confidence. Each bird style highlights the child's built-in advantages and natural superpowers.

Where DISC Meets Kids

- Designed for kids, in language they understand
- Communication tips based on bird style
- Guidance for both children and adults
- Better understanding of behavior
